\$1.5MM Line Of Credit Information Services Company

This information services company had suffered significant recent losses while in the process of restructuring its business lines. The company's local bank, though patient and supportive, had reached the point where it could no longer continue its working capital line and the company needed an immediate replacement. Despite the losses and a squishy receivable portfolio, Diamond was convinced that the shareholder commitment and management expertise would lead to a successful turnaround. With a little bit of creative structuring, Diamond found a way!

Our line of credit paid out the bank in full and bought the company the time needed to execute its turnaround plan.

No minimum. No prepayment penalty. When the company has made sufficient progress on its plan and re-qualifies for conventional financing, it will have an easy exit.

...Another Diamond success story!
