\$700,000 Line Of Credit

Secure Data Storage Provider

This company provides secure data storage and certified document destruction services to large corporations and government agencies, both state and federal. A line of credit was needed to pay-out an existing factoring facility, bring a number of creditors current and provide ongoing working capital for growth. Recent losses and the required cooperation of numerous parties, along with the relatively small loan size, made this transaction too complicated for traditional lenders.

Diamond moved quickly to fund a \$700,000 credit facility to address short-term cash flow needs and enable this 30+ year old company to implement its growth plans.

...Another win-win!
