\$1 Million Line Of Credit

Mfg. Decorative Printed Fabrics

Diamond Business Credit is pleased to announce that it recently funded a \$1 million line of credit to a newly formed company established to purchase the assets of a long standing printer of decorative fabrics used in the home furnishing industry.

When this long standing multi-national company decided to focus on core products and outsource the management of its printed fabric facility, it approached our client. Our client contemplated the fee-based facility management proposal and responded by offering to purchase the facility instead. The seller said "yes"! The seller took back some paper and entered a long term supply contract. This left only a working capital requirement which Diamond fulfilled.

The numerous moving parts and requirement for a quick closing and funding made this a perfect Diamond candidate. As always, Diamond delivered as advertised.
