Working Capital Financing \$25,000 to \$1.5 Million

Diamond Business Credit provides asset-based loans to businesses that do not qualify for bank financing. Losses, deficit net worth, stretched trade credit, even tax liens are not "deal-killers". Start-ups and early stage turnarounds are among our favorite loan candidates. A simple phone call is all that is needed to refer a candidate to Diamond - we'll do the rest. At no cost, Diamond will collect all credit information and deliver a yes/no loan decision within 24 hours of receiving the key credit-file variables. The result is very likely to be much needed working capital relief for the customer and a strengthened business relationship, perhaps a new or continued revenue stream, for the source.

When you must say no to a new or existing credit, we may be able to help with alternative financing. Either way, it's a WIN - WIN proposition!

\$75,000 Line Of Credit

When this start-up metal fabrication business needed a line of credit to fund multiple, large pending purchase orders it approached the usual sources. Due to the start-up nature of the business, a traditional bank loan was not available. The bank officer suggested Diamond Business Credit. Diamond quickly approved, closed and funded a \$75,000 line of credit. The business is filling orders and growing rapidly, the bank secured the depository relationship and gained a happy customer and Diamond helped another small business. As we said - a WIN-WIN proposition!

The Diamond Advantage

- Local Decision Making
- Experienced Deal Makers
- No Red Tape

The "Easy In, Easy Out" Approach

- No Cost Approval
- Minimum Up-front Fees
- Fast Close & Fund
- No Pre-payment Penalties
